## WHO WE ARE

EDM is an employee-owned professional design firm providing structural, civil, building systems (mechanical, electrical, plumbing) engineering and project management services, as well as complementary architectural services.

Past performance evaluations state that:

- "Project management listens to the client and communicates these needs to the entire team"
- "EDM has the ability to manage the entire project - from start to finish - coordinating consultants' efforts to meet one common goal"
- "Meets or exceeds schedules"
- "Ensures the project stays within budget and, most importantly, keeps everyone happy and confident that the project will be successful"
- "EDM never missed a deadline"

## WHAT SETS US APART?

- EDM encompasses engineering, architecture and project management under one roof, providing you with complete project integration
- The breadth of project experience of our staff, from interior office renovation to 70,000 seat stadiums provides EDM clients with virtually unlimited project capabilities
- Our size and employee ownership provide opportunity and incentive for direct communication between our Clients and Principals, with response time in hours, not days or weeks
